

Lions Club launches website to provide easy access to community resources

FOR THE FROSTBURG EXPRESS

FROSTBURG—The Frostburg Lions Club has launched a new website aimed at providing easy access to information and resources to the community. The website serves as an extension of the Lions' motto "We Serve" by providing simplified access to a variety of resources aimed at serving the needs of local residents.

"We Serve" is our way of bringing information directly to the community," said Frostburg Lions President Bill Munck. "When you need information, you need it now; we

hope that this website will accomplish that."

Included on the website, www.frostburglions.org, are tabs related to health care and wellness resources.

"If you Google Western Maryland Health Systems Cancer Center," Munck said, "you can get over 3 million items from your search — way too much to wade through."

Through the Health & Wellness tab on the Lions' website, simple pull-down menus provide the public with direct links to area health care facilities and general wellness information. Also provided is

a digital contact form for submitting questions to the Frostburg Lions nurse.

The Community Center tab implements the same easy-to-use menus for a variety of information ranging from Frostburg municipal websites to resources like the Maryland Sex Offender Registry. Resources relating to area shopping, banking, news and sports are also compiled in the community section.

Weather and emergency alerts, including Maryland Amber Alert, the U.S. Department of Homeland Security terror level and links to listen to local police scanners can be

found on the site. Links to information on emergency preparedness provide tips on building an emergency supply kit and learning about different weather conditions.

Agendas for upcoming Lions meetings and minutes from past meetings can be found on the site along with a reservation form for those who wish to attend a meeting of the club. The Frostburg Lions plan to expand the website as needed to meet the needs of the community.

For more information about the Frostburg Lions Club, call 301-687-0212 or visit the website at www.frostburglions.org.
