## EYE SCREENING HELD

The Frostburg Lions Club held a preschool eye screening program at the Frostburg State University Children's Center. The program provides a diagnostic evaluation for a condition called amblyopic, which appears in preschool children. Eye screening programs are offered for preschool programs through out Allegany County by the Frostburg and LaVale Lions clubs. In front, from left, are Gina LaManna, Taylor Howell, Claire Breighner, and Ava Rankin. In back are Elmer Smith, Frostburg Lions Club, Don Peck, LaVale Lions Club, and Denise Payne, director, FSU Children Center. The eye-screening programs are free to qualified children and additional eye-screening programs were held at Beall and Westermport elementary schools.
