

Lions Club inducts two new members

FOR THE FROSTBURG EDITION

FROSTBURG -- Vicki Peterson of Frostburg is the latest individual to become a Frostburg Lions Club member during a recent club meeting.

Peterson, a former Rotarian, brings a wealth of community service to the Frostburg Lions. She served previously as president of the Frostburg Rotary, is currently on the Frostburg Pantry Partners board and is secretary of the Frostburg Summer Lunch Box Program board.

"It was a sad day in Frostburg last June when the Frostburg Rotary folded," said Susan Munck, membership chair for the club. "They were our service partners, but now they can

continue community service through Lions."

Also inducted during the event was Liz Nest, a former nurse who will be heading up a new Lions program: The Community Health & Wellness Initiative. This program will provide literature on a variety of health topics, work with local health fairs, the Red Cross, and generally promote a healthy lifestyle communitywide.

The Frostburg Lions Club was chartered in 1945 and has a 69-year history of service to the community of Frostburg. Membership in the Frostburg Lions Club is open to everyone. For more information, call Munck at 301-687-0212.
